PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with over 3 years of professional experience specializing in the JavaScript ecosystem, including the MERN stack, Angular, and Next.js. Proven track record of architecting scalable web applications, integrating AI-driven LLM features, and delivering high-performance backend solutions from conceptualization to deployment.

PROFESSIONAL EXPERIENCE

Full Stack Developer | CTO Ninja

Dec 2023 - Apr 2026

- Engineered and maintained scalable web applications, improving overall system performance and responsiveness through clean architectural practices.
- Collaborated with cross-functional teams to translate business requirements into technical features, troubleshooting edge cases to deliver high-quality, reliable solutions.
- Designed and optimized secure backend systems, integrating complex APIs and managing databases to support highly scalable infrastructure.
- Tech Stack:** Angular, Next.js, Node.js, MongoDB, JavaScript, TypeScript, REST APIs

Web Developer Intern | Robofly Technology Private Ltd

Sep 2023 - Dec 2023

- Assisted in the development and maintenance of responsive web applications, ensuring optimal performance across multiple devices.
- Developed and implemented UI features and layouts utilizing HTML, CSS, and JavaScript in direct collaboration with the design team.
- Resolved cross-browser compatibility issues through rigorous debugging, significantly enhancing the overall end-user experience.

PROJECTS

Curalink | AI Medical Research Assistant Platform

- Built an AI-powered medical research assistant using the MERN stack with evidence-based retrieval and LLM-driven reasoning.
- Integrated OpenAlex, PubMed, and ClinicalTrials.gov APIs to deliver structured clinical insights, research summaries, and trial recommendations.
- Developed scalable REST APIs, multi-turn chat memory with MongoDB, and intelligent query ranking for accurate research retrieval.
- Built intelligent query expansion and retrieval-depth optimization to improve precision and generate research-backed clinical insights and trial recommendations.
- Tech Stack:** React, Node.js, Express.js, MongoDB, JavaScript, REST APIs, Ollama LLM, PubMed API, OpenAlex API, Groq API, Vercel, Git/GitHub

mi-Recall | B2B Progressive Web Application (PWA)

- Designed and developed mi-Recall, a B2B Progressive Web Application from the ground up, delivering offline-first functionality, fast load times, and seamless cross-platform access.
- Developed a Node.js and MongoDB backend, implementing secure APIs, business logic, and real-time data synchronization using Firebase.
- Integrated Google APIs and external third-party services to enhance enterprise workflows and data connectivity.
- Implemented AI-powered OCR extraction using ChatGPT to automatically process, extract, and structure data from uploaded documents, improving efficiency and accuracy.
- **Tech Stack:** Angular 18+, PWA, Service Workers, Node.js, MongoDB, Firebase, JavaScript, Google APIs, ChatGPT API

Pan Global Network | Membership, Events & Community Platform

- Architected and deployed a scalable, membership-based web platform using Next.js for the frontend and Node.js with MongoDB (AWS cluster) for the backend.
- Built real-time end-to-end chat and organization-level discussion forums with structured categories, moderation controls, and activity tracking.
- Integrated external event platforms (Google Calendar, Eventbrite, Luma) to aggregate, sync, and display events within a centralized dashboard.
- Designed secure REST APIs, optimized database schemas, and ensured cloud-ready deployment for production use.
- **Tech Stack:** Next.js, Node.js, MongoDB (AWS), JavaScript, REST APIs, Role-Based Access Control (RBAC), Google Calendar API, Eventbrite, Luma

EDUCATION

Bachelor of Computer Applications (BCA) |

May 2018 - June 2021

Makhanlal Chaturvedi University

- Completed a comprehensive Bachelor of Computer Applications (BCA) program with a strong foundation in programming, database management, software development, and web technologies.
- Gained hands-on experience through academic and team-based projects, involving the design, development, and implementation of applications.
- Developed strong problem-solving, analytical, and collaborative skills, along with a solid understanding of software engineering principles.

COURSES AND CERTIFICATES

Post Graduate Program in Full Stack Software

Jun 2022 - Apr 2023

Engineering | NIIT

- Completed an intensive Post Graduate Program in Full Stack Software Engineering, gaining strong proficiency in front-end and back-end development, database design, and application deployment.
- Built multiple hands-on, real-world projects, strengthening skills in coding, debugging, and system integration.
- Worked in agile development environments, collaborating on feature development, code reviews, and iterative delivery.
- Developed a solid understanding of software architecture, APIs, and scalable application design.

SKILLS

MERN Stack • Next.js • Angular • TypeScript • JavaScript • Java • Spring Boot • React Native • REST APIs • Google Cloud • Git • CI/CD • AI & LLM • AI-Assisted Development • AWS SES
